

1) Are these statements always, sometimes or never true?

- a) A mile is longer than a kilometre. _____
- b) The distances between some places are measured in miles, others are measured in kilometres. _____
- c) 12km is a distance between 7-8 miles. _____

2) Three children have worked out approximately how many kilometres there are in 15 miles.

Alice:
15 miles = 24km

Which child do you think is correct? Explain why.

Freya:
24km \approx 15 miles

Harry:
15 miles \approx 30km
