$$\square \cdot \square \times \square \square = \underline{\hspace{4cm}}$$

$$\square \cdot \square \times \square \square = \underline{\hspace{4cm}}$$

$$\square \cdot \square \times \square \square = \underline{\hspace{4cm}}$$

$$\square \cdot \square \times \square \square = \underline{\hspace{4cm}}$$

- b) What is the difference between the largest and the smallest product you can make using these cards?

## Reflect

Write three different multiplications with a product of 0.36.
