

## **Paddling- Using PEE to answer questions**

Colour code the PEE sections of each answer like we did in the lesson.

***In Chapter 6, how can you tell that Michael doesn't want to talk to his dad about school?***

In Chapter 6, it is clear that Michael does not want to have a conversation with his dad about school. I get this impression from the quotation, 'That's good. You managed the buses OK, then?' I nodded.' This makes you realise that Michael is reluctant to talk to his dad about school as he doesn't even speak but just nods. He might be doing this so his dad doesn't ask him any more questions.

***How does Michael feel after going to visit the man in the garage?***

After going to visit the man in the garage, I think that Michael is feeling scared. I know this because he said, 'My heart pounded'. (page 17) This makes the reader feel that Michael is feeling more and more anxious and doesn't know what to do or what to say to this thing in the garage.
