

Branches

The branches support the leaves and hold them up so they can receive the sunlight.

Perhaps someone who supports me.

There are leaves and blossoms which come from the branches.

Bark

Some tree bark looks like a face.

It looks like wrinkled skin.

Perhaps this could represent a grandparent.

Roots

Oldest part of the tree.

Hold it up.

Cannot see them.

Oldest member of my family.

Someone who holds the family together

Leaves

Youngest part of the tree.

Blown by the wind.

Always moving around.

Someone who is very energetic.

Perhaps someone who is young.

Dancing, turning, twisting
