

Calculate the difference by subtracting too much, then adding it back.

$$73 - 59 = \square$$

$$\square = 86 - 68$$

$$74 - 57 = \square$$

$$\square = 62 - 44$$

$$72 - 58 = \square$$

$$\square = 286 - 68$$

$$174 - 157 = \square$$

$$\square = 162 - 48$$

$$61 - 39 = \square$$

$$\square = 86 - 68$$

Calculate the difference by subtracting too much, then adding it back.

$$174 - 57 = \square$$

$$\square = 87 - 78$$

$$183 - 28 = \square$$

$$\square = 286 - 67$$

$$274 - 157 = \square$$

$$\square = 612 - 79$$

$$373 - 159 = \square$$

$$\square = 386 - 78$$

$$74 - 57 = \square$$

$$\square = 362 - 344$$
