

# Addition and Subtraction

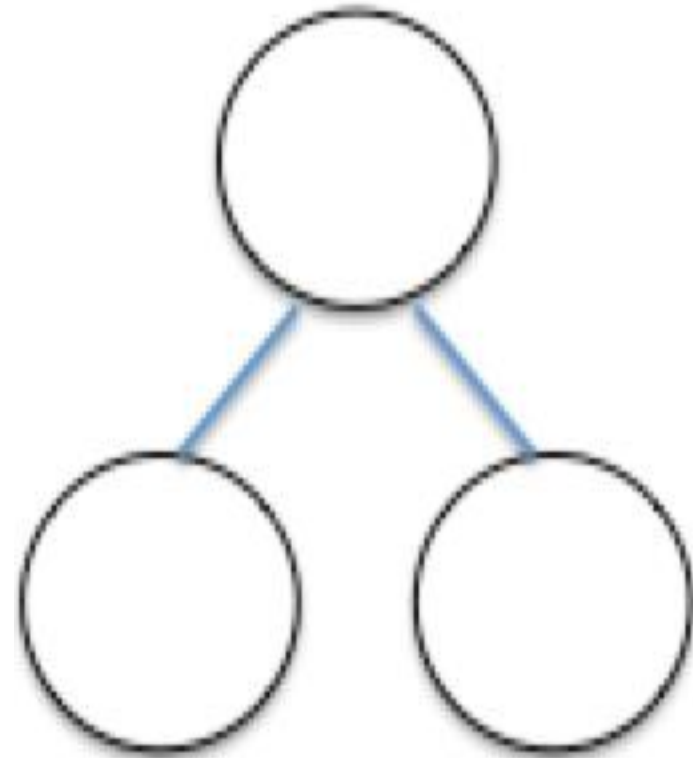

Wb 29.06.20

# Addition

Is when you combine one or more quantities together to reach the total or sum.

So, on your right you have the 'cherry model' or the part-part whole diagram.

Find the sum of  $234 + 45 =$

# Missing digits

This is where it becomes tricky...but there is a logical way of solving the missing digits.

$$\begin{array}{r} 89563 \\ + 4\boxed{\phantom{0}}5\boxed{\phantom{0}}9 \\ \hline \boxed{\phantom{0}}\boxed{\phantom{0}}3\boxed{\phantom{0}}22 \end{array}$$

# Subtraction

When you take a quantity or an amount away.

Sometimes you are calculating the ***difference*** between two amounts.

# Reasoning

Which of these number sentences have an answer that is between 0.6 and 0.7?

$$11.48 - 10.86 =$$

$$53.3 - 52.75 =$$
