

Science

In Science, we're continuing our work on electricity. This week we're going to carry on working on our topic of "Animal including Humans".

For this week, log onto Century Tech (century.tech) and find the "My Path" tab. Under "Due Assignments" at the bottom right of the page you will see a task. This will be to complete the assignment titled "Tuesday 12th May – Science – How the Body Works".

The screenshot shows the Century Tech home page for a user named John. The page features a dark theme with a central "John's Recommended Path" section containing five interactive cards. The first card, "6 Light Diagnostic", is highlighted with a white callout box stating "This is the 'My Path' tab". Below this is a "Due Assignments" section with a table listing a task: "Science - Tuesday 24th March 2020". A second callout box points to this table, stating "This is the 'Due Assignments' box. Your Science task will appear here." To the right is a "Did you know?" section with a question about electron flow and a video thumbnail. At the bottom right, there is a mood indicator "I am feeling happy" with a smiley face icon. A third callout box in the top right corner of the screenshot states "This is the Century Tech home page. You should see this when you log on." The Century logo is visible at the bottom center.

This is the Century Tech home page. You should see this when you log on.

Science - Tuesday 24th March 2020

Did you know?

Compared to a snail's pace, how quickly do electrons flow down a copper wire?

I am feeling happy 😊
