

PSHCE

This week's PSHCE lesson will be about preparing for secondary school. Make your way to this page from the BBC website

<https://www.bbc.co.uk/bitesize/articles/zj2grj6>

Read the text and watch the two videos.

Think about the advice that was given in the two videos and the advice about how to find your way around school. Use this information to create an information poster to advise Year 6s on top tips for starting secondary school. This should include:

- a checklist of things they think needed for a school day
- a plan the things you might need to get ahead of starting at a new school this could include stationery, a planner, a calculator etc.
