

## Science

In Science, we're continuing our work on electricity. This week we're going to begin work on "Animal including Humans".

For this week, log onto Century Tech (century.tech) and find the "My Path" tab. Under "Due Assignments" at the bottom right of the page you will see a task. This will be to complete the assignment titled "Tuesday 12<sup>th</sup> May – Science – How the Body Works".

This is the Century Tech home page. You should see this when you log on.

This is the "My Path" tab

This is the "Due Assignments" box. Your Science task will appear here.

The screenshot shows the Century Tech interface. At the top, it says "John's Recommended Path". Below this are five cards, each with a science-themed icon and a title: "6 Light Diagnostic" (with a red "START" button), "Sources of Light", "Using Light to See", "Protecting Your Eyes", and "Diagnostic: Additi Subtractor" (with a blue arrow). Below the cards is a "Due Assignments" section with a table:

Subject	Material	Due
Science	Nugget	Tomorrow
Science - Tuesday 24th March 2020		

To the right of the table is a "Did you know?" section with a question: "Compared to a snail's pace, how quickly do electrons flow down a copper wire?". At the bottom, there is a "CENTURY" logo and a "I am feeling happy" button with a smiley face icon.
