

The Coronation

Enquiry question: 'How did the Queen become The Queen?'

The Crown Jewels are kept in the Tower of London and made up of the orb, sceptres and the crown itself.

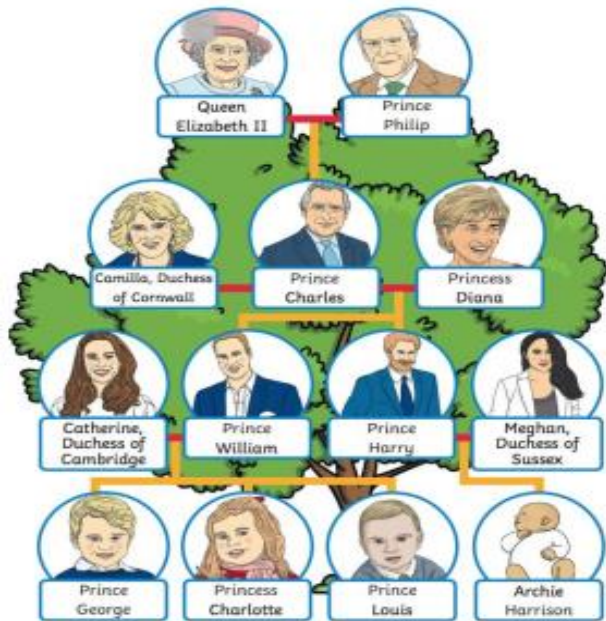

The royal crown is a symbol of power and authority, of triumph, victory, legitimacy, honor, and glory, but of resurrection, immortality and righteousness as well.

The monarch has two sceptres – one with a cross to represent their powers as the monarch and the other topped with a dove representing the holy ghost.

The orb represents the world and the cross represents God. Traditionally, the monarch has been God's representative on earth.

- ❖ England is ruled by a Queen.
